SYNOPSIS

Un jeune homme est agressé sexuellement. Il séquestre, punit, puis se lie d'amitié avec son propre agresseur. Il se confronte à son passé et à ses pulsions sexuelles ambigües. Entre fiction, autofiction et rêve, Friend of a Friend ouvre la réflexion autour de la maltraitance, de ses motivations et implications.

A young man is sexually assaulted and subdued, punishes, then befriends his own attacker while confronting his past and the ambiguities of sexuality. Part fiction, part non-fiction, part autobiography and part dream, Friend of a Friend attempts to broaden the conversation around abuse and its motivations and implications, as well as the survivor vs. assailant dynamic and results of ostracism.
